of the Unite B. S. C., 21 An Of Its Conte	TY CONTAINS REPORTATION AFFICTING THE NATIONAL DEFENSE OF CATTER THE STANKING OF THE ESPIONAGE ACT SO DEL AS ABENEDO. ITS TANKINGUISHON OF THE REPULATION OF THE STANKINGUISHON OF THE REPULATION OF THE STANKINGUISHON OF THE STANKINGUISH	THIS IS UNEV	ALUATED INFORMATION	
				50X1-HUN
1.	The Fachkommission for Inorganic Cherwhich advises the Ministries of Plans of inorganic chemistry. There are st	ning and Indust	ry on policy in the fiel	erts d
1.	which advises the Ministries of Plant of inorganic chemistry. There are sibranches of industry. Thirteen and one-half million DM (Ost for research in institutes, factories)	ning and Industrial committee t) were allotted s, laboratories	ry on policy in the fiel es for each of the other d by the DDR Ministry of etc., under the control	erts d Planning
	which advises the Ministries of Plant of inorganic chemistry. There are sibranches of industry. Thirteen and one-half million DM (Ost	ning and Industrial committee t) were allotted s, laboratories	ry on policy in the fieles for each of the other d by the DDR Ministry of etc., under the control ted as follows:	erts d Planning
	which advises the Ministries of Plant of inorganic chemistry. There are subranches of industry. Thirteen and one-half million DM (Ost for research in institutes, factories the DDR during 1950. These funds were	ning and Industrial committee t) were allotted s, laboratories re to be allocar	ry on policy in the fieles for each of the other d by the DDR Ministry of etc., under the control ted as follows:	erts d Planning
	which advises the Ministries of Plant of inorganic chemistry. There are started branches of industry. Thirteen and one-half million DM (Ost for research in institutes, factories the DDR during 1950. These funds were Pure Chemicals	ming and Industrial committee t) were allotted s, laboratories re to be allocat 7 million 1	ry on policy in the fieles for each of the other d by the DDR Ministry of etc., under the control ted as follows: DM	erts d Planning
	which advises the Ministries of Plant of inorganic chemistry. There are stableanches of industry. Thirteen and one-half million DM (Ost for research in institutes, factories the DDR during 1950. These funds were Pure Chemicals Inorganic	ming and Industrial committees t) were allottees, laboratories re to be allocar 7 million 1 1.5 million 1	ry on policy in the fieles for each of the other d by the DDR Ministry of etc., under the control ted as follows: DM DM	erts d Planning
	which advises the Ministries of Plant of inorganic chemistry. There are sibranches of industry. Thirteen and one-half million DU (Ostfor research in institutes, factorics the DDR during 1950. These funds were Pure Chemicals Inorganic Pesticides	ming and Industrial committees t) were allottees, laboratories re to be allocar 7 million 1 1.5 million 1	ry on policy in the fieles for each of the other d by the DDR Ministry of etc., under the control ted as follows: DM DM	erts d Planning
	which advises the Ministries of Plant of inorganic chemistry. There are subranches of industry. Thirteen and one-half million DM (Ost for research in institutes, factorics the DDR during 1950. These funds were Pure Chemicals Inorganic Pesticides Fharmaceuticals	ming and Industrial committee t) were allotted s, laboratories re to be allocar 7 million 1 1.5 million 1 2.5 million 1	ry on policy in the fieles for each of the other d by the DDR Ministry of etc., under the control ted as follows: DM DM	erts d Planning
	which advises the Ministries of Plant of inorganic chemistry. There are sibranches of industry. Thirteen and one-half million DM (Ostfor research in institutes, factories the DDR during 1950. These funds were Pure Chemicals Inorganic Pesticides Pharmaceuticals Other chemical research Apparatus design	ming and Industrial committees t) were allotted allocatories re to be allocatories re million 1 1.5 million 1 2.5 million 1 4 million 1	ry on policy in the fieles for each of the other d by the DDR Himistry of etc., under the control ted as follows: DM DM DM	erts d Planning
	which advises the Ministries of Plant of inorganic chemistry. There are sibranches of industry. Thirteen and one-half million DM (Ostfor research in institutes, factorics the DDR during 1950. These funds were Pure Chemicals Inorganic Pesticides Pharmaceuticals Other chemical research	ming and Industrial committee t) were allotted 1, laboratories re to be allocar 7 million 1 1.5 million 1 2.5 million 1 4 million 1	ry on policy in the fieles for each of the other d by the DDR Himistry of etc., under the control ted as follows: DM DM DM	erts d Planning
	which advises the Ministries of Plant of inorganic chemistry. There are sibranches of industry. Thirteen and one-half million DM (Ostfor research in institutes, factories the DDR during 1950. These funds were Pure Chemicals Inorganic Pesticides Pharmaceuticals Other chemical research Apparatus design	ming and Industrial committees t) were allotted allocatories re to be allocatories re million 1 1.5 million 1 2.5 million 1 4 million 1	ry on policy in the fieles for each of the other d by the DDR Himistry of etc., under the control ted as follows: DM DM DM	erts d Planning
	which advises the Ministries of Plant of inorganic chemistry. There are sibranches of industry. Thirteen and one-half million DM (Ostfor research in institutes, factories the DDR during 1950. These funds were Pure Chemicals Inorganic Pesticides Pharmaceuticals Other chemical research Apparatus design	ming and Industrial committees t) were allotted allocatories re to be allocatories re million 1 1.5 million 1 2.5 million 1 4 million 1	ry on policy in the fieles for each of the other d by the DDR Ministry of etc., under the control ted as follows: DM DM DM DM DM	erts d Planning
	which advises the Ministries of Plant of inorganic chemistry. There are sibranches of industry. Thirteen and one-half million DM (Ostfor research in institutes, factories the DDR during 1950. These funds were Pure Chemicals Inorganic Pesticides Pharmaceuticals Other chemical research Apparatus design	ming and Industrial committees t) were allotted allocatories re to be allocatories re million 1 1.5 million 1 2.5 million 1 4 million 1	ry on policy in the fieles for each of the other d by the DDR Himistry of etc., under the control ted as follows: DM DM DM	erts d Planning
	which advises the Ministries of Plam of inorganic chemistry. There are si branches of industry. Thirteen and one-half million DM (Ost for research in institutes, factorics the DDR during 1950. These funds wer Pure Chemicals Inorganic Pesticides Fharmaceuticals Other chemical research Apparatus design Infra-red work	ming and Industrial committees t) were allotted allocatories re to be allocatories re million 1 1.5 million 1 2.5 million 1 4 million 1	ry on policy in the fieles for each of the other d by the DDR Ministry of etc., under the control ted as follows: DM DM DM DM DM	erts d Planning
